Class 4: The Renaissance: Botany Begins to Emerge as Plants Arrive by Ship

- 1) Brief recap and elaboration of growth of knowledge through the Middle Ages
- 2) The Age of Exploration/Colonization begins: More early North American plants
- 3) Believing your own eyes: Observation changes books and gardens
- 4) Early South American plants
- 5) European movement continues: Clusius and tulips and more

Remember: No class Memorial Day; next class is June 7
